REPORT OF THE COMMISSIONERS OF THE HOUSE OF REFUGE

To the Warden and Council of the County of Peel.

Your Committee on House of Refuge for the year 1944 beg to report as follows: Conditions in connection with the building of the new addition have been disappointing, due principally to difficulty in securing materials and labor. We regret that we cannot report its completion. However, generally speaking, the work that is completed appears to have been well done and we hope that the building will be completed in the near future and the Home will then be provided with much needed accommodation.

The inventory shows that during the year 136 inmates were in residence in the Home, the average days residence for all inmates was 311.15 days, there is approximately 118 inmates resident in the Home at the present time.

The health of the inmates during the year has been very good, the number of deaths being 10. We believe this to be the least number of deaths for some years past.

The inventory of stock o nthe farm shows that there are 8 horses, 42 head of cattle, 19 pigs and poultry to the number of 156. Cattle and pigs were sold off the farm during the year for which we received $739.57.

The financial statement attached shows the House of Refuge to be in a good financial condition.

A matter that may have to be considered by your Commissioners and Councils of the two counties, is that, even with the new addition now in erection, it would appear that it will be a problem to provide accommodation for the number of applicants we are likely to receive.

All of which is respectfully submitted.

Signed on behalf of the Commissioners:

J. J. JAMIESON,
Secretary-Treasurer.

EXPENDITURE ON THE PEEL COUNTY ROAD SYSTEM DURING 1944

To the Warden and Members of Peel County Council.

Gentlemen:

I beg to submit herewith the statement of money expended, in accordance with the regulations of the Department of Highways of Ontario, on the Peel County Road System during the period, January 1, 1944, to December 31, 1944. The tabulated statements, declarations, etc., required by the Department of Highways have also been prepared and sent on to them.

The tax rate was three mills, the total expenditure including loans repaid of $101,500.00, was $201,921.14, and the amount submitted for subsidy was $90,632.19.

The work done during the year was chiefly maintenance. There were two construction jobs; one was the grading and straightening of the sandy hill north of Caledon East. This job was let by tender in 1943 to J. C. Duff, of Weston, but all payments were made in 1944. The other job was the grading of concession 3 west on the 27 sideroad and lots 28 and 29 on the Third Line West, Township of Chinguacousy. This work was also let by tender to J. C. Wiggins, of Cheltenham. Details of cost on these two jobs are shown in the following statements.

This was a start on bringing the County roads up to standard grade and alignment, but covered less than three miles in over 100 miles that should be improved.

A No. 12 caterpillar motor grader with snow plow and wing was ordered but not delivered, also a K7 International Truck to replace the Ford was ordered but not delivered in 1944.

With this equipment and some other machinery when it becomes available, the County Roads can be improved if the necessary funds are made available. Full details will be discussed with the committee during the coming year.

A summary of the work done during the year follows:

All of which is respectfully submitted.

N. L. POWELL, B.A.Sc.,
County Engineer and Road Supt.

Moved by Mr. Skinner, seconded by Mr. Jenkins: That whereas it is the duty of the Clerk of the County of Peel to investigate all Hospital indigent accounts to ascertain the County's Liability, also when requested he must attend and prepare all applications for Old Age Pensions and Mothers' Allowances throughout the County of Peel and it will be necessary for the Clerk to obtain extra gasoline.

Moved by Mr. Jenkins, seconded by A. McCormick: Whereas due to the fact that large numbers of beef cattle which have been marketed during the last eight months have been shipped direct to the packing plants without being offered on the open market, large quantities of cattle have remained in the Union Stock Yards unsold for long periods thereby causing great loss to the farmer.

Be it therefore resolved that this Council petition the Provincial Government to enact legislation making it compulsory that all cattle being shipped to Toronto be consigned to the Union Stock Yards market and sold on the open market, and thereby creats an open competitive market.

And that a copy of this resolution be sent to the Hon. The Minister of Agriculture of Ontario, The Federal Department of Agriculture at Ottawa, and to all County Councils in Ontario for endorsation. Carried.

NOVEMBER REPORT OF THE CHILDREN'S AID SOCIETY COMMITTEE

To the Warden and Council of the County of Peel.

Your Committee on Children's Aid beg to report as follows:

1. It has recently been held that relief has no effect on residence under the Children's Protection Act. The result is that where a family goes on relief and that relief is chargeable back

to another Municipality, or where a family on relief is moved from one Municipality to another, and subsequently a child of such family becomes a ward of the Children's Aid Society, the maintenance of such child is chargeable to the Municipality in which the child last resided for 12 months, irrespective of the responsibility for relief.

We recommend that legislation be sought whereby the Municipality responsible for payment of relief shall be responsible for the maintenance of any child on relief who subsequently becomes a ward of a Children's Aid Society.

2. We recommend the payment of the following Committee fees and Mileage:

J. G. Reid, 2 meetings	$16.00
J. W. Davis, 1 meeting	7.40

3. We recommend that the Treasurer be authorized to pay subsequent Committee fees and mileage on requisition of the Chairman.

Adopted November 22nd, 1945.

J. G. REID,
Chairman.

CECIL L. GOTT,
Warden.

Warden and Council,

Brampton, Ontario.

Gentlemen:

We have audited the accounts of the Corporation of the County of Peel for the year ending December 31, 1944, and submit herewith the following report, together with statements listed on the Index.

Report

Cash on Deposit—The amounts of $19,034.99 on deposit in the General Account and $2,335.94 in the Road Account have been verified by direct communication with your bankers. All monies received are deposited in bank accounts in the name of the Municipality and all payments are made by cheque except certain small payments for postage and express. Money received from personal phone calls and stamps is used to pay for express, freight, and postage, and in 1944 $20.00 was paid into the General Bank Account. Summary of transactions for the year are as follows:

Balance Dec. 31, 1943	$11.72	$39.12
Receipts, 1944	27.40	
Disbursements, 1944	11.97	
Deposit to General Bank Account	20.00	31.97
Balance Dec. 31, 1944		$ 7.15

This balance is not set up in the General County Books.

County Rates Receivable, $1,874.22—This represents County Rates levied for 1944 which had not been paid as at Dec. 31, 1944. The rates were owing by the following:

Bolton	$1,553.07
Toronto Gore	321.15
Total	$1,874.22

The amount of $321.15 due from the Township of Toronto Gore represents adjustments in the rates levied. The regular levy of $5,387.21 for 1944 was paid by the Township of Toronto Gore. The adjustment was occasioned by the Township of Toronto Gore receiving from Wartime Housing Limited on account of services of which a portion is due to the County of Peel; and also the Township of Toronto Gore included in their assessment which was used as a basis of equalization by the County, assessment which was exempt from tax. Summary of net adjustment is as follows:

Received by Township of Toronto Gore from Wartime Housing Limited

Re 1943, $1,750.00, County's Share	$ 467.27
Re 1944, $1,750.00, County's Share	544.64
Deduct:	
Adjustment due to Township of Toronto Gore from County due due to loss of taxes on property which was exempt	690.76
Net Adjustment	$ 321.15

The Township of Toronto Gore has paid to the County $1,011.91 in 1945 and it will be necessary for the County to pay the Township of Goronto Gore the amount of $690.76. Computation of this amount was made on the basis of explanations received as follows:

Total assessment reported 1943 for use in equalizing for 1944	$1,168,760.00
Of the above assessment $284,900.00 was on property which was exempt but for purposes of equalization only $130,000.00 was used. That is for equalization there was excluded ($284,900.00 — $130,000.00)	154,900.00
Assessment used for equalization	$1,013,860.00

No taxes were received on the $130,000.00 assessment included in the above total. In view of this, the equalized assessment should have been rreduced by 130,000.00 of the amount used and the levy
1,013,860.00
by the County should have been correspondingly less. On this basis the adjustment in the County lvy was:

130,000.00 x 5,387.12 — $690.76
1,013,860.00

Accounts Receivable—Road Accounts, $2,410.11—This represents charges against other Municipalities for work on boundary roads and other accounts receivable for road material supplied to various people.

Accounts Receivable—Province of Ontario Road Grant, $19,113.24—The estimated subsidy from the Province of Ontario on account of 1944 expenditure on the roads is $45,197.84 of which $26,084.60 was received in 1944 leaving a balance $19,113.24 receivable as at December 31, 1944.

Good Roads System—Surplus, $6,792.55—The Surplus of the Good Roads System is made up as follows:

Deficit as at December 31, 1943		$7,554.20
Add:		
Subsidy for 1943 less than estimated		375.54
Deduct:		
Subsidy for 1943 and prior equipment	$1,005.62	
Additional 1943 accounts receivable	322.76	
Surplus for year 1944	13,393.91	
		14,722.29
Surplus as at December 31, 1944		6,792.55

The Surplus for 1944 is summarized as follows:

Revenues		
County Levy for Good Roads System (as adjusted)		$65,085.97
Subsidy for 1944		45,197.84
Boundary Roads and Sundry Sales of Material		3,529.28
		113,813.09
Expenditures		
Road Expenditures for the year	$98,828.68	
Interest Charges	1,590.50	
		100,419.18
Surplus for year 1944		$13,393.91

There are various outstanding accounts which were not paid as at December 31, 1944, which have not been provided for in arriving at the above expenditure. It has not been the practice in the past to set up accounts which were not paid by December 31st, with the result that the above expenditure includes some accounts for 1943 which were not paid until 1944 but does not include some 1944 accounts which have been, or will be paid in 1945.

The County transferred to the Good Roads System bank account $67,152.71 as their share of the 1944 rates. The share of the rates which should have been available to the Good Roads System was $65,085.97 after taking into consideration the adjustments with the Townships of Toronto and Toronto Gore. This has resulted in $2,066.74 in excess of the Good Roads System's share of 1944 rates being transferred to them.

Equity in Current Assets of Peel and Halton—House of Refuge—50% Interest, $6,068.82—This represents the County of Peel's interest in the Current Assets, less the Current Liabilities, of the House of Refuge as at December 31, 1944.

Bank Loans—Road Account, $15,000.00—The Bank Loan of $15,000.00 has been confirmed by direct communication with your bankers.

Current Surplus, $10,495.57—The surplus for the year amounting to $224.63 has been added to the surplus carried forward from previous years to give an accumulated surplus of $10,495.57.

Capital Surplus, $186,394.22—The Capital Surplus was adjusted due to the increase in the value of the County's interest in the Capital Assets of the House of Refuge. The increase in the value of theCapital Assets of the House of Refuge occurred due to a building addition having been made from Current Funds of the House of Refuge; and also to a small extent to an increase in the furniture and fixtures and farm implements.

Revenue and Expenditure—Statement of Revenue and Expenditure showing detail of the items entering into the calculation of the surplus for the year $224.63 is submitted herewith. County rates have been adjusted with the Township of Toronto and Toronto Gore due to revenue by the townships on account of services supplied and exempt assessments having been originally used for purposes of equalization. The net adjustments made are shown on the Schedule of County Rates levied. The rates as adjusted have been shown on the Statement of Revenue and Expenditure. To the extent that certain revenues of 1944 not received until 1945 and expenditures of 1944 not paid until 1945 are not included and similar terms at December 31, 1943, were not included, the surplus for the year is incorrect. The assets and liabilities of the County are also understated by any amounts which were receivable or payable as at December 31, 1944. The effect of not including accruals in the year's operations possibly is small as the accruals at December 31, 1944, were no doubt approximately the same as at December 31, 1943.

Fidelity Bond—The County Treasurer, John J. Jamieson, is covered by a Fidelity Bond for an amount of $10,000.00. In our opinion this bond would appear to be sufficient.

Insurance in Force—Schedule of Insurance in Force is submitted herewith. In our opinion, having in mind the depreciated value of the buildings, this insurance appears to be adequate.

Children's Aid Society—During 1944 a Children's Aid Society was formed and Statement of Receipts and Disbursements in connection therewith is included in this report.

Certificate—We certify that we have obtained all the explanations and information we have required and that, in our opinion, the transactions of the Municipality, which have come under our notice, have been within the powers of the Municipality, with the exception of any matter which may be reported upon heretofore. In our opinion, the Current Balance Sheet and Capital Balance Sheet submitted herewith are properly drawn up so as to exhibit a true and correct v iew of the state of the Municipality's affairs and as shown by the books of the Municipality. We certify that, in our opinion, the audit and report are in accordance with the regulations of the Department of Municipal Affairs respecting Municipal audits.

All of which is respectfully submitted.

Chartered Accountants.

REPORT OF SPECIAL COMMITTEE ON FLOOD CONTROL

To the Warden and Council of the County of Peel.

Your Committee on Flood Control beg to report as follows:

As you will recall a Committee of three consisting of the Warden, W. Davis, Reeve of the Township of Toronto, and the Chairman of the Post War Planning Committee, was appointed to meet with a Committee from York County Council and attend on the Honourable Dana Porter, Minister of Planning and Development.

On the 19th inst., the Warden and Mr. Davis, in the absence of your Chairman, attended at the York County Offices and had a preliminary discussion with the Committee from York County and then attended on Mr. Porter at the Parliament Buildings.

At this meeting, Mr. Porter intimated that while the Bill to authorize the appointment of a Commission or Authority as he called it, had been submitted to the House at the last Session, it had only received its first reading but would receive its three readings at the coming Session.

Under this Bill it would appear that the County would not have any particular part to play in the question of flood control, reforestation or soil conservation, but that any Municipality in the River valley under the Act would have authority to apply to the Government to set up machinery by which the authority or commission would be appointed and in this way the work would be initiated by the Municipality itself and any County under this proposed bill can assess the cost of the Municipality's share in accordance with the benefit derived. If this cannot be agreed upon amongst the Municipalities, then there is machinery available to settle the amount payable by the Municipalities. It is anticipated that 75% of the cost of these works would be borne by the Dominion and Provincial Governments and the remaining 25% by the Municipalities affected. Of course the bill may be changed from its present form before it is finally passed.

We recommend payment of the following:

H. R. Lawrence	$5.00 plus mileage
W. Davis	$5.00 plus mileage

Adopted March 8th, 1946.

Chairman.

H. R. LAWRENCE,

PEEL COUNTY ROAD SYSTEM

ANNUAL REPORT OF EXPENDITURES DURING 1945

To the Warden and Members of Peel County Council.

Gentlemen:

I beg to submit herewith the statement of money expended, in accordance with the Regulations of the Department of Highways of Ontario, on the Peel County Road System during the period January 1st, 1945 to December 31st, 1945. The tabulated statements, declarations, etc., required by the Department of Highways have also been prepared and sent on to them.

The tax rate was three mills, the total Expenditure, including loans repaid, was $221,508.68, and the amount submitted for Subsidy was $125,679.62.

The Construction work done during the year was more extensive than in former years. A new bridge was built at Malton, on the Sixth Line, Lot 11, Townships of Toronto and Toronto Gore. The span was thirty feet with a clear roadway of thirty feet and two five-foot sidewalks. The Contractor was A. Lothian of Alexandria, Ontario. A new wingwall was also constructed at Boundary Bridge No. 1, on the Middle Road diversion above the Queen Elizabeth Way. This bridge is over the Etobicoke and on the York County Boundary.

A base course was put on the Third Line East from Dundas Street to Burnhamthorpe.

On the Fourth Line West, Toronto Township, Lots 7 and 8, the old mulch road was covered with a new asphalt mulch, three inches in depth and a six-inch tile drain installed in the east shoulder, both three-quarters of a mile long.

A diversion in Concession Six East on the Caledon Sideroad was made to eliminate most of the trouble with the road being blocked with snow. The land and fencing is to be paid for in 1946 and the grade trimmed up. Armstrong Bros. were the grading Contractors.

The Motor Grader ordered in 1944 was delivered; also the New Truck. Two Sanders were purchased and a small pump for applying Emulsions purchased. This is powered by a gasoline engine.

Recommendations for further equipment and other new work will be submitted early in the New Year.

There are many necessary improvements to be made to make the County Roads safe and suitable for the traffic they have to carry.

A summary of the work done during the year follows.

All of which is respectfully submitted.

N. L. POWELL, B.A.Sc.,
County Engineer and Road
Superintendent.

Streetsville Road—Toronto Township, Concession 4 and 5, W.H.S., Lots 7 and 8.

A new surface was placed on the northerly three-quarters of a mile of the road paved in 1936 with a pre-mixed gravel mulch. This section of the road had broken up badly for several years, owing to lack of drainage and the pavement being quite thin. Tenders were called for tile drains in 1944 but prices were considered too high, and finally in October 1945 the drainage job was let to Roy Beattie, of Islington, at 25 cents per foot for a 4 foot deep trench and placing of the tile. The County supplied six-inch vitrified tile, and covered it with six inches of gravel, then did the back filling.

The new pavement was approximately three inches in depth. The gravel was from Bovaird's pit. The asphalt was supplied by the Imperial Oil Company—M.C. 2 and sprayed by Armstrong Bros.

Third Line East, Toronto Township, Lots 5/6, Concession One, North of Dundas Street.

This road is of a sandy nature and has given a lot of trouble in past years. It has been hard to keep up, and gravel on this section is expensive owing to the long haul. It was decided to put in a good base in 1945 with the intention of putting a mulch surface on in 1945.

Grading Diversion of Road—Caledon Township, Concession 6 E.H.S., Lot 15.

This concession has always been hard to keep open in winter, part of it is through a swamp with the roadway only 20 ft. wide, and the jog at the centre, partly straightened 20 years ago, was in need of improvement. The road was diverted south of the swamps and trees which will form a natural snow fence. The new roadway was graded 30 feet wide with curves having a 1,000 ft. radius. Agreements were signed by the three property owners, and deeds will be completed in 1946. In estimating the cost of this diversion, compared with one through Lot 16, consideration was given to the saving in snow fence. A diversion in Lot 16 would have required over half a mile of snow fence being erected and taken down each year. As constructed, only a few rods will be required. Tenders were called and the grading awarded to the lowest bidder. Tenders were on an estimated quantity of seven thousand cubic yards, and the following were received:

Armstrong Bros., Brampton	19 cents per cu. yd.
Harry Beer, Alton	27 cents per cu. yd.
Knowles Const. Co., Toronto	34 cents per cu. yd.
Shenton Const. Co., Toronto	42 cents per cu. yd.

Wire fencing, 300 rods (not erected)	214.46	
Armstrong Bros. Constr.	1,330.00	
		$ 1,654.01

The Land is to be paid for in 1946, fences erected, the grade trimmed, and the road gravelled.

Canadian Pacific Railway Crossing, Toronto Township, 4th Line West, South of Streetsville.

When this road was paved the crossing was made to fit the elevation of the rails of this double track road. At this point the tracks are on a curve and grade. In the course of years, the Railway Company lowered the tracks, particularly the southerly one and this left the crossing very rough for motor vehicles.

The pavement was removed for 20 feet on the south side and six feet on the north side, and replaced at track elevation with a light pavement of chips and emulsion that can be changed easily. The railway section gangs assisted in the work and an account for the County expenditure has been sent to the C.P.R.

SUPERINTENDENT'S CAR

Expenditures:

Insurance	$ 40.21	
Major repairs	209.76	
		$ 249.97

From 1921 to 1941 the County purchased the car for the Engineer's use and held back $25.00 per month or $300.00 per year to cover the cost of replacing it each year, as set out in the By-law covering the Engineer's salary and expenses. Any balance not needed to replace the car was refunded to the Engineer.

In March, 1943, the holdback was cancelled as of April 1, 1943. This amounted to an increase in salary for the Engineer from $2,650.00 to $2,950.00 per year. There was a holdback from April 1st, 1941 to March 31st, 1943, of $600.00.

In 1943 the County Council approved of charging against this holdback the major repairs, since the car could not be replaced. The 1943 and 1944 major repairs paid by the County Council amounted to $186.40, leaving a balance of $413.60 at January 1st, 1945.

Further repairs of $209.76 were passed in 1945, leaving a balance at the end of the year 1945 of $203.84.

Trust Assets and Liabilities

General—Under various court orders, real and personal property of certain inmates has been vested in the municipal corporation of the Counties of Peel and Halton, and subsequently the Counties of Peel and Halton have transferred their interest to the Board of Management of the House of Refuge. The Board of Management has, in some cases, realized on the assets and applied them in payment of the maintenance of the inmates, and in other cases, they are receiving the income from the assets which they have been applying to the maintenance of the inmates, or which has been deposited in a Special Trust Account for the inmates. A supplementary report is being submitted showing the detail of the assets held for individual estates.

Cash on Deposit, $361.14—Cash on Deposit of $361.14 is in a special Trust Account in the name of "Counties of Peel and Halton, House of Refuge Special Trust Account". We have verified the amount on deposit with your bankers.

Dominion of Canada Victory Loan 3% June 15, 1951, $1,500.00—These bonds are fully registered in the name of the Commissioners, Peel and Halton House of Refuge, Trustees of the Estate to which they are applicable. We have attended at the bank and examined these bonds.

Provinceof Alberta—6% March 1, 1947, $500.00—This bond is a bearer bond with coupons March, 1945 to maturity attached. We have examined this bond. We understand interest is being paid at the rate of 3% and the coupons to September, 1945, will be clipped, and proceeds will be deposited in 1946.

War Savings Certificates (Maturity Value $50.00) Cost $40.00—These certificates are registered in the name of the inmate for whom the Trust is being administered. They form part of the original assets turned over.

Agreement for Sale, $350.00—Balance outstanding on agreement for sale is $350.00. The agreement calls for annual payment of $50.00 principal together with interest. Principal and interest are paid to the last interest date on this agreement.

Mortgage, $400.00—The Balance outstanding on this mortgage is $400.00. Interest is paid to November 1, 1945.

Maintennace Prepaid, $25.69—The proceeds from sale of certain assets of various trusts have been applied on account of maintenance. As at December 31, 1945, maintenance was prepaid on account of two inmates by an amount of $25.69.

Estates of Inmates—re Invested Funds and Unrealized Assets, $3,176.83—This represents the total assets held in trust being administered by the House of Refuge for the benefit of various inmates.

General

Statement of Revenue and Expenditure for year ending December 31, 1945—Statement of Revenue and Expenditure for the year ending December 31, 1945, shows a Surplus for the year of $4,365.15. Following the practice of former years, balances owing on account of any inmates and any accounts outstanding as at December 31, 1945, have not been set up.

Statement of Receipts and Disbursements for year ending December 31, 1945—Statement of Receipts and Disbursements for the year ending December 31, 1945, is submitted herewith.

Fidelity Bonds—The following Fidelity Bond is in force:

J. J. Jamieson—Secretary-Treasurer $2,000.00

In our opinion, the bond on the Secretary-Treasurer is sufficient.

Insurance in Force—Schedule of Insurance in Force is submitted herewith. In our opinion, having in mind the depreciated value of the buildings, this insurance is adequate.

Certificate—We certify that we have received all the explanations and information that we have required, and that, in our opinion, the transactions of the Board of Management of the House of Refuge which have come under our notice have been within the powers of the Board, with the exception of any matters which have been reported above. In our opinion, the Statement of Assets and Liabilities as at December 31, 1945, submitted herewith is properly drawn up so as to exhibit a true and correct view of the state of affairs of the House of Refuge as revealed by the information which we have been able to obtain. In our opinion, the audit and report are in accordance with the regulations of the Department of Muniicpal Affairs respecting Municipal audits.

All of which is respectfully submitted.

CORPORATION OF THE COUNTY OF PEEL

February 28, 1946.

Warden and Council,
County of Peel,
Brampton, Ontario.

Gentlemen:

We have audited the accounts of the Corporation of the County of Peel for the year ending December 31, 1945, and submit herewith the following report, together with statements listed on the Index.

Report

Cash on Deposit—The amounts of $39,397.12 on deposit in the General Account and $5,152.86 in the Road Account have been verified by direct communication with your bankers. All monies received are deposited in bank accounts in the name of the Municipality and all payments are made by cheque except certain small payments for postage and express. Money received from personal phone calls and stamps is used to pay for express, freight, and postage. Summary of transactions for the year are as follows:

Balance December 31, 1944	$ 7.15
Receipts 1945	23.80
	$30.95
Disbursements 1945	26·81
Balance December 31, 1945	$ 4.14

This balance is not set up in the General County Books.

Accounts Receivable—Road Accounts, $3,799.65—This represents charges against other Municipalities for work on boundary roads and other accounts receivable for road material supplied to various people.

Accounts Receivable—Province of Ontario Road Grant, $31,527.74—The estimated subsidy from the Province of Ontario on account of 1945 expenditure on the roads is $66,245.29 of which $34,717.55 was received in 1945 leaving a balance of $31,527.74 receivable as at December 31, 1945.

Good Roads System—Surplus, $13,642.94—The Surplus of the Good Roads System is made up as follows:

Surplus as at December 31, 1944	$ 6,792.55
Deduct:	
Subsidy for 1944 less than estimated	50.00
	6,742.55

Add:	
Surplus for year 1945	6,900.39
Surplus as at December 31, 1945	$13,642.94

The Surplus for 1945 is summarized as follows:

Revenue

County Levy for Good Roads System (as adjusted)		$ 69,539.01
Subsidy for 1945		66,245.29
Boundary Roads and Sundry Sales of Material		7,524.77
		$143,309.07

Expenditures

Road Expenditures for the year	$134,421.39	
Interest Charges	1,987.29	136,408.68
Surplus for Year 1945		$6,900.39

These are various outstanding accounts which were not paid as at De0cember 31, 1945, which have not been provided for in arriving at the above expenditure. It has not been the practice in the past to set up accounts which were not paid by December 31st, with the result that the above expenditure includes some accounts for 1944 which were not paid until 1945 but does not include some 1945 accounts which have been, or will be, paid in 1946.

The County transferred to the Good Roads System bank account $65,309.58 as their share of the 1945 rates. The share of the rates which should have been available to the Good Roads System was $69,539.01 after taking into consideration the adjustments with the Township of Toronto. This has resulted in $4,229.43 less than the Good Roads System's share of 1945 rates being transferred to them. In 1944, $2,066.74 in excess of the Good Roads System's share of 1944 rates was transferred to them. A net amount of $2,162.69 is due to the Good Roads System as at December 31, 1945, in order that the Good Roads System will have their share of the rates.

By-law No. 950 states in part as follows:

"That the said Newton L. Powell for his duties as County Engineer and Road Superintendent be paid the salary of $2,950.00 per year in monthly instalments and an additional sum of $50.00 per month to cover car and travelling expenses. The County to purchase and own the car." The County Engineer and

Road Superintendent has been paid on the above basis and has paid the operating expenses of the car. The County has paid certain invoices for major repairs on the car. Such payments have been approved by the Good Roads Committee and we have accepted them as in order as the County is the owner of the car.

Equity in Current Assets of Peel and Halton—House of Refuge—50% Interest, $8,251.39—This represents the County of Peel's interest in the Current Assets, less the Current Liabilities, of the House of Refuge as at December 31, 1945.

Bank Loans—Road Account, $29,000.00—The Bank Loan of $29,000.00 has been confirmed by direct communication with your bankers.

Current Surplus, $24,754.05—The Surplus as at December 31, 1944, amounted to $10,495.57 and $5,355.75 was taken into the 1945 Budget. The surplus for the year amounting to $19,614.23 (after taking into 1945 Revenue $5,355.75 from prior years' surplus) has been added to the Surplus Account to give an accumulated surplus of $24,754.05.

Capital Surplus, $190,355.52—The Capital Surplus was adjusted due to the increase in the value of the County's interest in the Capital Assets of the House of Refuge. The increase in the value of the Capital Assets of the House of Refuge occurred due to a building addition having been made from Current Funds of the House of Refuge; and also to a small extent to an increase in the furniture and fixtures and farm implements.

Revenue and Expenditure—Statement of Revenue and Expenditure showing detail of the items entering into the calculation of the surplus for the year of $19,614.23 is submitted herewith. County rates have been adjusted with the Township of Toronto due to revenue received by the township on account of services supplied on property exempt from assessment and taxes. The adjustment made is shown on the Schedule of County Rates levied. The rates as adjusted have been shown on the Statement of Revenue and Expenditure. No adjustment has been made between the Township of Toronto Gore and the county due to any revenue for services which the township may have received for 1945 on account of property exempt from assessment and taxes. To the extent that certain revenues of 1945 not received until 1946 and expenditures of 1945 not paid until 1946 are not included and similar items at December 31, 1944, were not included, the surplus for the year is incorrect. The assets and liabilities of the county are also understated by any amounts which were receivable or payable as at December 31, 1945. The effect of not including accruals in the year's operations possibly is small as the accruals at December 31, 1945, were no doubt approximately the same as at December 31, 1944.

During 1945 a countract was entered into for the building of a caretaker's cottage. Up to December 31, 1945, only $600.00 had been paid on this contract. This expenditure has been charged to Current Expenditures under the heading Maintenance of County Property. The actual expenditure for Maintenance of County Property is substantially under the amount provided in the budget as the total anticipated cost of this cottage had been provided for in the 1945 budget.

Fidelity Bond—The County Treasurer, John J. Jamieson, is covered by a Fidelity Bond for an amount of $10,000.00. In our opinion this bond would appear to be sufficient.

Insurance in Force—Schedule of Insurance in Force in submitted herewith. During December, 1945, a new Fire Insurance Policy was written effective from December 20, 1945, to replace all the Fire Insurance Policies in force at that time. The first payment on this policy was not made until 1946. No rebates on policies cancelled were received in 1945, some rebates were received in January, 1946, and some rebates still had not been received at the time of our audit.

Children's Aid Society—Statement of Receipts and Disbursements of the Children's Aid Society is included in this report.

Peel County Library Board—Separate Statement of the Peel County Library Board will be submitted.

Certificate—We certify that we have obtained all the explanations and information we have required and that, in our opinion, the transactions of the municipality, which have come under our notice, have been within the powers of the municipality, with the exception of any matter which may be reported upon heretofore. In our opinion, the Current Balance Sheet and Capital Balance Sheet submitted herewith are properly drawn up so as to exhibit a true and correct view of the state of the municipality's affairs and as shown by the books of the municipality. We certify that, in our opinion, the audit and report are in accordance with the regulations of the Department of Municipal Affairs respecting municipal audits.

All of which is respectfully submitted.

PEEL COUNTY HEALTH UNIT

QUARTERLY REPORT

JULY — SEPTEMBER

1946

The Peel County Health Unit asumed responsibility for the administration of Public Health in the County on July 1st, 1946. As a temporary expedient the Council chamber at the Court House, Brampton, was first used for office accommodation and later, on the 23rd of August, the Health Unit moved to the basement of the Court House.

The immediate objectives of the staff on the formation of the Unit were to deal with various Health problems as they arose, to familiarize themselves with the county, and to develop a health programme for the coming year commensurate with the ability of the staff.

Staff

The original members of the staff were as follows:—

Dr. D. G. H. MacDonald, M.D.—M.O.H. and Director
Miss M. Jarvis, R.N., P.H.N.—Director of Nurses
Mrs. H. Roy, R.N., P.H.N.—Public Health Nurse
Mr. W. G. Cooke, C.S.I. (C)—Sanitary Inspector
Mr. F. L. Lunn, C.S.I. (C)—Sanitary Inspector

Later additions were:—

Aug. 21/46—Miss Leora Wright, R.N., B.Sc. — Public Health Nurse
Sept. 3/46—Mrs. H. Littleton, R.N., P.H.N. — Public Health Nurse
Sept. 5/46—Miss E. Campbell, R.N., P.H.N. — Public Health Nurse
Sept. 5/46—Mrs. B. Reinert—Clerk Stenographer

Due to her inability to locate adequate living accommodation in Brampton Mrs. Roy tendered her resignation on 1st October to take effect on the 30th October.

Promotion of Unit

Every opportunity has been taken of promoting the Unit by the staff both in their personal contacts with the public and by lectures. Five lectures have been given by the Director, and five by the Director of Nurses to Women's Institutes and equivalent organizations outlining the aims and objectives of the Unit.

Sanitation Programme

During the period under review 65 complaints as to nuisance were received. These required 129 visits from the Sanitary Inspectors. Many of the complaints were long standing and had been saved up for the Health Unit. All posible action was taken in each case.

Milk Programme

All dairies have been vistied by the Sanitary Inspectors each month for the purpose of inspection and the taking of milk samples for analysis at the laboratories of the Provincial Department of Health. In every case the milk was found to be pasteurized but high plate and B. coli counts were distressingly frequent in the samples of pasteurized milk. Dairies have been kept informed as to the results of the laboratory tests and advice has been given as to improvement in milk handling and processing.

Raw milk received at the daires has also been checked for sediment and temperature on arrival and samples sent for laboratory analysis. An undue proportion of the raw milks examined showed high plate and B. coli counts.

Supplementing the dairy inspections the Sanitary Inspectors have visited the dairy farms, 40 visits being made this quarter, the dairy farm being inspected and suggestions made for the improvement of the milk shipped to the dairies.

Restaurant Inspection

Seventy-five visits were made to restaurants and hotels during the period under review. Three were definite menaces to health and considerable improvement was effected in the management of these restaurants. The work of restaurant inspection will be considerably facilitated when the County By-law concerning restaurants has been passed by the Council.

Communicable Disease

There were no deaths from communicable disease. Three cases of poliomyelitis were reported in the County during this period. A detailed report on the types and location is included as an Appendix.

School Health Programme

A rapid inspection of all public school and continuation school pupils was completed early in September. A thorough inspection will be done on every school child in the county this coming year, and to date 448 children have been so examined. Special physical examinations will be done by the nurses on pupils who will not be seen by the M.O.H. this year. Every child will have his eyes tested (number to date 145) and hearing tests will be done where indicated (total to date 146).

Physical examinations by the M.O.H. has commenced in the schools and to date three schools have been so examined.

twenty-eight cases of pediculosis were treated in the home.

Immunization Programme

Immunization has commenced at 14 schools in the county. Parents of pre-school children were invited to bring their children at the time the school was visited. By the end of September 33 immunizations had been given to pre-school children, 269 to school children and 4 to adults.

Tuberculosis Programme

The object of this programme is to see that all cases and contacts in the county are receiving adequate care and supervision for their own welfare and that of the county. Arrangements have been made to hold a clinic at Peel Memorial Hospital on the 5th of November. During this quarter 74 visits have been made in connection with this work.

Infant and Child Welfare Programme

During this quarter Mrs. Roy has attended the weekly Child Health Conference in Brampton and during this time 177 infants and pre-school children have attended the conference, 30 being new registrations and 147 being return visits.

During September Miss Campbell has assisted at the Port Credit Well Baby Clinic durin which time the clinic attendance was 42.

On hundred and forty home vistis have been made to infant and pre-natal children.

Venereal Disease Programme

During the first six months of this year 9 cases of syphilis and 13 cases of gonorrhoea were reported in this county.

During this quarter the Health Unit was notified as to 9 cases of venereal disease discharged from the Army, 7 cases that were delinquent from treatment from their own physicians or clinics, and 9 persons who were contacts of venereal disease. Twelve of these 25 cases have been dealt with satisfactorily.

WATER SANITATION PROGRAMME

Our Sanitary Inspectors have visited all public water supply plants at regular intervals and water samples have been submitted for analyses. In all cases public water supplies were Grade A. Private supplies were tested as requested. All school wells were tested.

Samples for analyses	171
Samples showing contamination	27

In addition to the above specified programmes the unit has also participated in inspections of Garbage and Refuse Dumps, Septic Tank Installations, Locker Plants, Food Processing Plants, Tourist and Summer Camps, Swimming Pools, Psittacine Bird establishments, Funeral Parlours, Fumigations and Complaints and programmes of Veneral Disease control, Communicable Disease control, Cancer Control, Crippled Children and Public Health Education.

The Unit, due to its recent inception, the inherited backlog of work and the shortage of Public Health Nurses has been able to provide only the essentials of the recognized Health programmes and inspections. However, during the coming year its activities will be increased and expanded to offer to the county greater Public Health Services.

Donald G. H. MacDonald, M.A.,M.D.,D.P.H.
Medical Officer of Health
Peel County Health Unit.

FINANCING OF UNIT

The unit received its funds from the County and from the Provincial Department of Health, the latter equalling the contributions of the former to a certain limit. The agreed budget for this period was $22,000.00. The County has not, as yet, made its full contribution.

EXPENDITURES ON THE PEEL COUNTY ROAD SYSTEM DURING 1946

To the Warden and Members of the Council of the County of Peel.

Gentlemen:

I beg to submit herewith the statement of money expended in accordance with the Regulations of the Department of Highways of Ontario on the Peel County Road System during the period January 1st, 1946, to December 31st, 1946.

The tabulated statements, declarations, etc., required by the Department of Highways in submitting the Petition for the Subsity, have also been prepared.

The tax rate was 3 mills and the total expenditure including loans repaid was $282,883.48. The amount submitted for Subsidy was $157,974.45.

Construction work for the year included paving 1½ miles of the Third Line East, Township of Toronto, from Dundas Street past Burnhamthorpe with a Gravel Mulch pavement. Three bridges were built. Laidlaws in the west half of Concession 3, West Meadowvale Sideroad, a 35 ft. span, 56 ft. long. Barnett's in Concession 6, West Brampton Sideroad, a 16 ft. span 52 ft. long and an 18 ft. span 52 ft. long on the 6th Line East opposite Lot 6, Albion, and Lot 23 Chinguacousy. All these structures replaced old concrete bridges that were built years ago in the early days of concrete construction. They were built 14 ft. wide and were a very dangerous hazard to traffic.

The time has come to make very definite changes in our methods of road maintenance. Winter roads, sanding, snow plowing, and the blocking of all ditches with snow are the cause of large expenditures and should be given careful consideration by Council. A summary of the work done during the year follows.

All of which is respectfully submitted.

N. L. POWELL, B.A., Sc.,
Registered Professional Engineer,
County Engineer and Road Superintendent.

Malton Bridge—Lot 11, Townships of Toronto and Toronto Gore

This bridge was built in 1945 but it was impossible to secure the steel railing although tenders were called twice in 1945. A third call was made early in the year and five tenders were received. Prices varied for the twelve panels from $360.00 plus tax to $864.00 plus tax. The tender of the Standard Steel Construction Co., of Welland at $360.00 plus tax was accepted, being the lowest tender.

The approach sidewalks were also constructed by H. Kaiting of Malton @ 46c per sq. ft.

TILE DRAIN—ERINDALE SCHOOL

East of the Streetsville Road and immediately north of the Erindale School there was a pond of stagnant water, the cause of many complaints from the School Board. To drain this pond through the road would have been expensive and entailed considerable work. It would have meant cutting the pavement.

Instead of this culvert the County put a tile drain through the yard of the school. This drain could have been down the side of the road but would have been more expensive.

THIRD LINE EAST—DUNDAS ST. TO BURNHAMTHORPE

This road has always been difficult to maintain and keep fit for traffic. The soil is of a sandy nature and gravel was a long distance away. It was decided to pave it and tenders were called.

Seven tenders were received as follows:

Road Mix Mulch, Armstrong Bros.	$ 11,720.00
Road Mix Mulch, Municipal Spraying	12,128.50
Pre Mix Asphalt Cold, Hagusville Paving Co.	15,410.00
Pre Mix Asphalt Cold Mix, Armstrong Bros.	17,270.00
Pre Mix Hot Laid, Godson Construction Co.	15,755.00
Pre Mix Asphalt Hot Laid, A. E. Jupp Co.	19,160.00

The Contract was awarded to Armstrong Bros. for Road Mix Mulch at unit prices. The estimated quantity of gravel was 2,800 tons but after 60% of the gravel was on the road it was found that the quantity was above that estimated, and the excess amount would have to be used for shoulders or picked up and moved along the road or used in the pavement. The Engineer decided to use it in the pavement since the 2½ to 3-inch thickness in the estimated pavement was the bare minimum amount required to make a road. All other quantities were increased in proportion and the final cost was considerably in excess of the estimate but the pavement 25% thicker.

Tenders were called and two six hundred gallon capacity Weed Spraying Machines on skids were purchased from Spramotor Co., of London, Ontario. Extra equipment included a 20 ft. boom, installed on one machine, and a 2″ Centrifugal Pump for filling purposes.

The Engineer's car was replaced with a 1946 Chevrolet Sedan. Difference on trade-in—$848.93.

An International Panel Truck was purchased for the use of the men in the south end. The four-ton truck used in the work was loaded in summer with asphalt barrels and stone chips, in spring and fall it was hauling snow fence, and in winter is equipped with a snow plough and sanders. The gang is usually five to seven or more men and there is no place for the men to ride to and from work except on the top of the load.

Except for three in the cab of the large truck the men had no place to go in case of rain or to eat their lunch. It is also necessary to divide the gang and send them to two different places. Because of this it was necessary to use a motor car owned by some of the men and this was not a satisfactory arrangement.

Cost of Truck—Prime cost only	$ 1,389.10
Painting, one coat	58.00
	$ 1,447.10

Another coat of paint is needed in 1947.

Two Swensen Sanders sold by the Sawyer-Massey Co., of Hamilton, were purchased and installed on the trucks. These sanders fit on the rear of a dump body and are driven by a chain from the rear wheel. This type of spreader does not require a man on the body, or shovelling when unloading and in addition to saving the cost of a man it keeps at least one and may at times two men from the necessity of working in a dangerous position.

Cost

Two Sanders delivered	$ 705.39
Mounting	3.00
	$ 708.39

MACHINERY

In previous years the trucks, motor graders and snow ploughs were carried in an operating account and the cost of the various operations were charged on an hourly rental basis. In most cases there was a debit or credit balance to be carried to the succeeding year. Sometimes this debit or credit was quite large.

This year these accounts have been closed out so that there is no balance to carry forward. In closing these accounts the balances have been changed to the different operations proportionately so as to give the cost of the work. This change is made to comply with the changing method of accounting and with the approval of the auditors of the Department of Highways.

At the new County yard at Victoria purchased in 1945 it was impossible to get building materials to erect a suitable machinery hall, but it was necessary to have a place to protect the No. 12 motor grader and snow plow.

The John Patterson Construction Co. had a supply of suitable lumber and they were given the job of erecting a wooden building 24′ x 40′ with 12′ walls.

The building was wired for lights and will be very useful for storage when a machinery hall is erected. A fence was erected around the whole area. This was purchased from the Lundy Fence Co., and is of the "Watchman" type, 6′ high with two strands of barb wire on top. Steel posts set in concrete were used.

General—Under various court orders, real and personal property of certain inmates has been vested in the municipal corporation of the Counties of Peel and Halton, and subsequently the Counties of Peel and Halton have transferred their interest to the Board of Management of Peel & Halton Home. The Board of Management has, in some cases, realized on the assets and applied them in payment of the maintenance of the inmates, and in other cases, they are receiving the income from the assets which they have been applying to the maintenance of the inmates, or which has been deposited in Special Trust Accounts for the inmates. A supplementary report is being submitted showing the detail of the assets held for individual estates.

Cash on Deposit, $2,661.70—Cash on Deposit of $2,661.70 is in special Trust Accounts in the name of "Peel & Halton Home—Special Trust Account" and "Treasurer County of Peel—Trust Account". We have verified the amounts on deposit with your bankers.

Fidelity Bonds—The following Fidelity Bond is in force: J. J. Jamieson, Secretary-Treasurer, $2,000.00. In our opinion, the bond on the Secretary-Treasurer is sufficient.

J. J. JAMIESON,
County Treasurer.

Toronto 1, January 21, 1947

Warden and Council,
County of Peel,
Brampton, Ontario.

Gentlemen:

We have audited the accounts of the Corporation of the County of Peel for the year ending December 31, 1946, and submit herewith the following report, together with statements listed on the Index.

Report

Cash on Deposit—The amounts of $17,250.00 on deposit in the General Account and $3,359.14 in the Road Account have been verified by direct communication with your bankers. All monies received are deposited in bank accounts in the name of the Municipality and all payments are made by cheque except certain small payments for postage and express. Money received from personal phone calls and stamps is used to pay for express, freight and postage. Summary of transactions for the year are as follows:

Balance December 31, 1945	$ 4.14
Receipt, 1946	16.65
	20.79
Disbursements, 1946	19.19
Balance December 31, 1946	$ 1.60

This balance is not set up in the General County Books.

Accounts Receivable—Road Accounts, $2,998.42—This represents charges against other Municipalities for work on boundary roads and other accounts receivable for road material supplied to various people.

Accounts Receivable—Province of Ontario Road Grant, $36,876.30—The estimated subsidy from the Province of Ontario on account of 1946 expenditure on the roads is $84,371.75 of which

$47,495.45 was received in 1946 leaving a balance of $36,876.30 receivable as at December 31, 1946.

Good Roads System—Surplus, $1,866.48—The Surplus of the Good Roads System is made up as follows:

Surplus as at December 31, 1945		$ 13,642.94
Deduct:		
Subsidy for 1945 less than estimated	$ 44.77	
Deficit for year 1946	11,731.69	11,776.46
Surplus as at December 31, 1946		$ 1,866.48

The Deficit for 1946 is summarized as follows:

Revenue

County Levy for Good Roads System (as adjusted		$ 65,845.00
Subsidy for 1946		84,371.75
Boundary Roads and Sundry Sales of Material		5,935.04
		$156,151.79

Expenditures

Road Expenditures for the year	$165,792.80	
Interest Charges	2,090.68	167,883.48
Deficit for Year 1946		$ 11,731.69

These are various outstanding accounts which were not paid as at December 31, 1946, which have not been provided for in arriving at the above expenditure. It has not been the practice in the past to set up accounts which were not paid by December 31st, with the result that the above expenditure includes some accounts for 1945 which were not paid until 1946 but does not include some 1946 accounts which have been, or will be, paid in 1947.

The County transferred to the Good Roads System bank account $65,712.38 as their share of the 1946 rates. The share of the rates which should have been available to the Good Roads System was $65,845.00 after taking into consideration the adjustment with the Township of Toronto. This has resulted in $132.62 less than the Good Roads System's share of 1946 rates being transferred to them. An amount of $2,162.69 was paid to the Good Roads System in 1946 to adjust for the underpayment of the Good Roads System's share of rates in 1944 and 1945.

Equity in Current Assets of Peel & Halton Home—50% Interest, $7,096.40—This represents the County of Peel's interest in the Current Assets, less the Current Liabilities, of the Peel &

Halton Home (formerly Peel and Halton House of Refuge) as at December 31, 1946.

Bank Loans—Road Account—$41,500.00—The Bank Loan of $41,500.00 has been confirmed by direct communcation with your bankers.

Current Surplus, $19,323.64—The Surplus as at December 31, 1945, amounted to $24,754.05 and $2,609.00 was taken into the 1946 Budget. The Deficit for the year amounting to $2,821.41 (after taking into 1946 Revenue $2,609.00 from prior years' Surplus) has been deducted from the Surplus Account to leave an accumulated Surplus of $19,323.64.

Capital Surplus, $200,121.52—The Capital Surplus was adjusted due to the construction of a cottage for the use of the Caretaker at a cost to December 31, 1946, of $7,400.00; and also by the increase in the value of the County's interest of $2,366.00 in the Capital Assets of the Peel & Halton Home.

Revenue and Expenditure—Statement of Revenue and Expenditure showing detail of the items entering into the calculation of the Deficit for the year of $2,821.41 is submitted herewith. County rates have been adjusted with the Township of Toronto due to Revenue received by the Township on account of services supplied on property exempt from assessment and taxes. The adjustment made is shown on the Schedule of County Rates levied. The rates as adjusted have been shown on the Statement of Revenue and Expenditure. No adjustment has been made between the Township of Toronto Gore and the County due to any Revenue for services which the Township may have received for 1945 or 1946 on account of property exempt from assessment and taxes. To the extent that certain revenues of 1946 not received until 1947 and expenditures of 1946 not paid until 1947 are not included and similar items at December 31, 1945, were not included, the Surplus for the year is incorrect. The assets and liabilities of the County are also understated by any amounts which were receivable or payable as at December 31, 1946. The effect of not including accruals in the year's operations possibly is small as the accruals at December 31, 1946, were no doubt approximately the same as at December 31, 1945.

During 1945 a contract was entered into for the building of a caretaker's cottage. Up to December 31, 1946, $7,400.00 ($6,800.00 in 1946) had been paid on this contract. In 1946, this expenditure has been shown on the Revenue and Expenditure Statement under the heading "Caretaker's Cottage—1946 Payments."

Fidelity Bonds—The County Treasurer, John J. Jamieson, is covered by a Fidelity Bond for an amount of $10,000.00. In our opinion, this bond would appear to be sufficient.

Insurance in Force—Schedule of Insurance in Force is submitted herewith. In our opinion, having in mind the depreciated value of the buildings, this insurance appears to be adequate.

Children's Aid Society—Summary of Receipts and Disbursements of the Children's Aid Society is included in this report.

Health Unit—Statement of Receipts and Disbursements of the Health Unit is included in this report.

Library Association — Summary of Receipts and Disbursements of the Peel County Library Association is included in this report.

Certificate—We certify that we have obtained all the explanations and information we have required and that, in our opinion, the transactions of the Municipality, which have come under our notice, have been within the powers of the Municipality, with the exception of any matter which may be reported upon heretofore. In our opinion, the Current Balance Sheet and Capital Balance Sheet submitted herewith are properly drawn up so as to exhibit a true and correct view of the state of the Municipality's affairs and as shown by the books of the Municipality. We certify that, in our opinion, the audit and report are in accordance with the regulations of the Department of Municipal Affairs respecting Municipal audits.

All of which is respectfully submitted.

Chartered Accountants.

FINANCIAL REPORT

◆

1947

County of Peel Financial Report, 1947

Warden and Council,
County of Peel,
Brampton, Ontario.

March 10, 1948.

Gentlemen:

We have audited the accounts of the Corporation of the County of Peel for the year ending December 31, 1947 and submit herewith the following report, together with statements listed on the Index.

Report

Capital and Loan Fund Section

Investment in Capital Assets, $201,181.29—The Investment in Capital Assets was adjusted due to the additional construction cost of the cottage for the use of the Caretaker in the year ending December 31, 1947 of $416.10; and also by the increase in the value of the County's interest of $643.67 in the Capital Assets of the Peel and Halton Home.

Revenue Fund Section

Cash in Bank, $22,744.61—The amounts of $14,201.70 on deposit in the General Account and $8,542.91 in the Road Account have been verified by direct communication with your bankers. All monies received are deposited in bank accounts in the name of the Municipality and all payments are made by cheque except certain small payments for postage and express. Money received from personal phone calls and stamps is used to pay for express, freight, and postage. Summary of transactions for the year are as follows:

Blance, December 31, 1946	$ 1.60
Receipts, 1947	15.07
	16.67
Disbursements, 1947	14.23
Balance, December 31, 1947	$ 2.44

This balance is not set up in the General County Books.

Accounts Receivable—Road Accounts, $2,036.98—This represents charges against other Municipalities for work on boundary roads and other accounts receivable for road material supplied to various people.

Due From Province of Ontario, $57,423.50—The estimated subsidy from the Province of Ontario on account of 1947 expenditures on the roads is $108,356.07 of which $50,932.57 was received in 1947 leaving a balance of $57,423.50 receivable as at December 31, 1947.

Equity in Current Assets of Peel and Halton Home—50% Interest, $5,837.44—This represents the County of Peel's interest in the Current Assets, less the Current Liabilities, of the Peel and Halton Home (formerly Peel and Halton House of Refuge) as at December 31, 1947.

Temporary Loan, $75,000.00—This Bank Loan of $75,000.00 has been confirmed by direct communication with your bankers. The loan has been arranged for the Good Roads System rather than for general County purposes.

Surplus, $8,032.60—In 1946 and prior years the surplus or deficit, as the case might be, of the Good Roads System was shown separately from the surplus or deficit of the County general. However, due to the new forms in use for 1947 showing Highway and Road Expenditures on the General Revenue and Expenditure Account of the County rather than on a separate statement, we have consolidated the surpluses as at December 31, 1946, the surplus for 1947 and the surplus as at December 31, 1947 but note below a detail of these items so that the portion of the account applicable to Roads separated from the balance of the County Accounts can be seen:

Surplus—General Account December 1, 1946	$19,323.64	
Surplus—Road Account December 31, 1946	1,866.48	
Total Surplus December 31, 1946		$21,190.12
Deduct:		
Surplus—General Account included in Current Budget	19,266.62	
Good Roads Subsidy for 1946 received less than estimated	917.94	
		20,184.56
		1,005.56
Add Surplus for 1947		
General Account Surplus	14,433.24	
Less County Roads Deficit	7,406.20	
Net Surplus for 1947		7,027.04
Surplus as at December 31, 1947		$ 8,032.60

Taking into account the above items which affect General Account and those which affect Road Account the above balance is made up as follows:

Surplus—General Account as at December 31, 1947	$14,490.26
Deficit—Road Account as at December 31, 1947	6,457.66
Surplus as above as at December 31, 1947	$ 8,032.60

Revenue and Expenditures — Statement of Revenue and Expenditures showing detail of the items entering into the calculation of the Surplus for the year of $7,027.04 is submitted herewith. In prior years we have shown the Surplus or Deficit of the Good Roads System separate from the General Account but with the new revised forms this is not required. However, we note below the breakdown of the Surplus for the year so as to show these two sections separately:

Surplus for 1947—General Account	$14,433.24
Deficit for year 1947—Good Roads System	7,406.20
Surplus for the years as above	$ 7,027.04

County Rates have been adjusted with the Township of Toronto and the Township of Toronto Gore due to revenue received by the Township of Toronto on account of services supplied on property exempt from assessment and taxes for the year 1947 and due to revenue received by the Township of Toronto Gore on account of services supplied on property exempt from assessment and taxes for the year 1946. The adjustments made are shown on the Statement of Revenue and Expenditures. No adjustment has been made between the Township of Toronto Gore and the County due to any revenue for services which the Township may have received for 1947 on account of property exempt from assessment and taxes.

All outstanding debentures of the County matured in 1947 and Debenture Advance Levies had been made in prior years to provide for the full amount of the debenture charges for 1947 and these Debenture Advance Levies have been taken in as revenue on the Revenue and Expenditure Account for the year 1947. However, the County also provided for raising sufficient funds to pay the 1947 Debenture Charges when they prepared their 1947 Budget and it is due to this, to a large extent, that the General County Accounts showed the Surplus which they did for the year 1947.

The General County Accounts are kept on a cash receipts and payments basis with the result that, to the extent that certain revenues of 1947 not received until 1948 and expenditures of 1947 not paid until 1948 are not included and similar items at December 31, 1946 were not included, the surplus for the year is incorrect. The assets and liabilities of the County are also understated by any amounts which were receivable or payable as at December 31, 1947. The affect of not including accruals in the year's operations will be small if the accruals at December 31, 1947 were approximately the same as at December 31, 1946.

Health Unit—Capital and Revenue Fund Balance Sheets and Statement of Revenue and Expenditure Account of the Health Unit are included in this report.

Children's Aid Society—Statements of Receipts and Payments of the Children's Aid Society is included in this report.

Library Association—Statement of Receipts and Payments of the Peel County Library Association is included in this report.

CERTIFICATE

We certify that we have obtained all the explanations and information we have required and that, in our opinion, the transactions of the Municipality which have come under our notice have been within the powers of the Municipality, with the exception of any matter which may be reported upon heretofore. In our opinion, the Balance Sheets together with the Income and Expenditure Accounts and other statements submitted here with are properly drawn up so as to exhibit a true and correct view of the state of the affairs of the Municipality and its Boards and Commissions as shown by the books and records. We certify that, in our opinion, the audit and report are in accordance with the regulations of the Department of Municipal Affairs respecting Municipal audits.

All of which is respectfully submitted.

Chartered Accountants.

Trust Assets and Liabilities

General—Under various court orders, real and personal property of certain inmates has been vested in the municipal corporation of the Counties of Peel and Halton, and subsequently the counties of Peel and Halton have transferred their interest to the Board of Management of Peel and Halton Home. The Board of Management has, in some cases, realized on the assets and applied them in payment of the maintenance of the inmates, and in other cases, they are receiving the income from the assets which they have been applying to the maintenance of the inmates, or which has been deposited in Special Trust Accounts for the inmates. A supplementary report is being submitted showing the detail of the assets held for individual estates.

Cash on Deposit, $1,746.63—Cash on deposit of $1,746.63 is in special Trust Accounts in the name of "Peel and Halton Home—Special Trust Account" and "Treasurer County of Peel—Trust Account." We have verified the amounts on deposit with your bankers.

Dominion of Canada Victory Loan 3% June 15, 1951, $1,500.00—These bonds are fully registered in the name of the Commissioners, Peel and Halton House of Refuge. Trustees of the Estate to which they are applicable. We have attended at the bank and examined these bonds.

War Savings Certificates (Maturity Value $50.00) Cost $40.00—These certificates are registered in the name of a former inmate for whom the Trust is being administered. They form part of the original assets turned over.

Agreement for Sale, $250.00—Balance outstanding on agreement for sale is $250.00. The agreement calls for annual payment of $50.00, principal, together with interest. Principal Instalment and interest are paid to the last interest date on this agreement.

General

Statement of Revenue and Expenditure for year ending December 31, 1947—Statement of Revenue and Expenditure for the year ending December 31, 1947, shows a deficit for the year of $2,517.91. Following the practice of former years, balances owing on account of any inmates and any accounts outstanding as at December 31, 1947, have not been set up.

Statement of Receipts and Disbursements for year ending December 31, 1947—Statement of Receipts and Disbursements for the year ending December 31, 1947, is submitted herewith.

Fidelity Bond—The following Fidelity Bond is in force:

J. J. Jamieson, Secretary-Treasurer, $2,000.00.

In our opinion, the bond on the Secretary-Treasurer is sufficient.

Insurance in Force—Schedule of Insurance in Force is submitted herewith. In our opinion, having in mind the depreciated value of the buildings, this insurance is adequate.

Board of Management—Peel and Halton Home

COUNTY OF PEEL

Expenditure on the County Road System During 1947

To the Warden and Members of the Council of the County of Peel.

Gentlemen:

I beg to submit herewith the detailed statement of money expended in accordance with the Regulations of the Department of Highways of Ontario on the Peel County Road System during the period January 1st, 1947, to December 31st, 1947.

The tabulated statements, declarations, etc., required by the Department of Highways in submitting the petition for the subsidy have also been prepared and submitted.

The mileage of county roads is 136 miles. The mill rate was 3½ mills and the total expenditure including loans repaid of $150,700.00 was $360,201.09. The amount submitted for subsidy was $195,417.89.

The most notable construction work was on the Sixth Line East, starting near the south boundary of Lot 12, Townships of Toronto Gore SS, and Toronto, and extending for six lots northerly to the north limit of Lot No. 2, Townships of Chinguacousy and Toronto Gore NS, a distance of two and one-quarter miles.

The road allowance was widened to 100 feet—the road regraded and ditches constructed 80 feet apart. A foundation of gravel was placed on the new grade.

The Meadowvale Sideroad in the Township of Toronto, Lots 10/11, Concession 1. WHS, and the easterly two-thirds of Concession 2, WHS, was widened to 86 feet, regraded and gravelled in the same manner. Also three-quarters of Lot 15, Concession 4/5, West, Township of Toronto, was widened, regraded, and gravelled in conjunction with the construction of a new bridge and the approaches.

After the effect of the winter and the spring break-up is observed a detailed report on this new departure on the County Roads of this County will be submitted for your consideration.

Three new concrete bridges were constructed and two new concrete culverts. A contract was let for a new bridge in Bolton but this was postponed until spring of 1948. Snow ploying costs were unusual, $28,310.01; snow fencing cost $4,250.77, and sanding $6,085.24. Total for winter roads, $38,646.02. This was very high and as a result other maintenance work was reduced. More money must be spent on maintenance in 1948 if our roads are to be kept in a safe and reasonable condition for the rapidly increasing traffic they will have to carry. The summary of the work done during the year follows.

All of which is respectfully submitted.

N. L. POWELL, B.A.. Sc.,
Registered Professional Engineer,
County Engineer and Road Supt.

Job 7-47—Inglewood Culvert

After the road between Concessions 1 and 2, WHS., Lots 1 and 2, Township of Caledon, which includes the Main Street of the Police Village of Inglewood, was taken over as a County Road, the drainage was found to be in poor condition.

At the corner of a cross street a drain ran under the store of J. A. Ramsay and another at an angle from an open drain on the side street opposite the west end of the Community Hall. Both opened at the rear of the house on the east side of the County Road facing the United Church.

It was decided to replace these two pipes with one 42 inch culvert entirely on the streets. The pipe was purchased in 1946 but the work was not approved by the Department of Highways. Before anything was done in 1947 a very heavy rain washed the county road out and it was necessary to install this pipe immediately.

Eighty feet of pipe on the side street and half the cost of a catch basin on the corner was charged to the Township of Caledon.

Cost to County of Peel:

Labor	$ 226.43	
Machinery Rentals:

Job 10-47—Bridge, Lot 9, Concession ¾, Township of Albion

This bridge has a very narrow roadway of 15 ft. 8 in. over all, a span of 12 ft. and is 8 ft. high. The top is ten feet below the level of the road—200-300 ft. away on either side and should be widened or replaced as soon a s possible. An amount of $1,500.00 was in the estimates for 1947 but this was not enough, so the work was postponed.

Job 11-47

The sharp bend on the corner of Ten Sideroad and the Sixth Line, Albion, was staked out to a seven-degree curve, also the bend leading into Bolton in Lot 9. The first corner on Claude Wilson's farm is a 95-degree angle.

Cross sections and grade line were established but owing to the difficulty in getting an Ontario Land Surveyor and the objections of the land owners no work was possible in 1947.

GARDNER'S CULVERT

Job 12-47, Toronto Township, Lots 10-11, Con. 2 West

In order to grade the road properly it was necessary to lengthen the 10 ft. span concrete culvert built in 1930.

This also applies to Job 13-47, Shaw's Culvert, Sixth Line East, Lot 2, Chinguacousy and Toronto Gore, a six foot span concrete culvert.

Tenders were called to close July 24/47, but none were received. Later the County was able to have Shaw's built by K. A. Morrison, of Toronto, as per tender prices listed below. Also Gardner's by A. H. MacLellan, of Mount Forest as per tender prices listed below. Both of the above contractors had other work within a few miles of these jobs. These tenders were confirmed by resolution of the 1947 Road Committee at their last meeting, January 6, 1948.

A statement of estimated cost of both jobs follows:

Job 14-47—Cowtan's Bridge, Township of Toronto, Lots 10-11, Con. 5 E.H.S., Malton Sideroad:

This bridge was a 40 ft. span steel truss, 17 ft. roadway and had carried all the traffic during the war years.

On August 27, 1947, the King Paving Company, of Oakville, attempted to take a D-8 Caterpillar Tractor on a float over it. The bridge collapsed. No one was hurt but the steel deck was a complete wreck. Reinforcing steel was not available until Christmas, so it was decided to put in a detour.

A claim was made against the King Paving Co. and this was settled by agreement, the King Paving Co. paying $750.00.

This tractor and snow plow was purchased in 1931. In 1945-6 it operated two weeks and broke down. Repairs were obtained in August, 1946. In 1946-47 it was working 95½ hours and broke down again. An estimate of the cost of repairs was to be at least $300.00, so it was decided not to repair it but to sell at the best price possible. Tenders had been called twice but no offers were received.

Late in the year an offer of $500.00 was made for the plow and $150.00 for the tractor. These tenders were accepted but payment was not made in 1947.

Port Credit, Ontario, Dec. 11, 1948.

The Council of the County of Peel,
Brampton, Ontario.

Gentlemen:

As your appointee to the South Peel High School Board I submit this report reviewing briefly the administration of secondary school affairs in the first year of the South Peel High School Area.

As stated in the report of your Consultative Committee recommending the formation of Area Boards the basic problem in the south area arises from the unprecedented growth in population that has taken place during the past six to seven years. This has resulted in serious overcrowding of facilities which eighteen years ago were considered adequate for a long time to come.

The Board, therefore, were faced with the immediate necessity of accommodating the existing large enrollment in existing facilities at Port Credit, Cooksville and Streetsville and planning for additional and adequate modern accommodation to meet the need of the entire area so that the schools of South Peel will be equal in efficiency to any in the Province so there shall be equality of opportunity for all children of the area.

On January 1st, 1948, Port Credit High School, built to accommodate 450 students, had an enrollment of just over 600. The continuation school at Cooksville, occupying 3 class rooms in the Public School, had an enrollment of 50 students but would, with additional equipment, take care of about 100. Streetsville High School with an enrollment of 53 could accommodate 75 to 80.

It was obvious that Port Credit, with classes in the library, the boys' and girls' lunch rooms and in the auditorium, could not possibly take any more than the existing enrollment, which was already far too large for efficient teaching, yet from figures available we knew that the number of probably successful entrance candidates from public schools served by the three schools would exceed the number graduating from or otherwise leaving High School.

It was decided to allocate pupils with a view to (1) distributing the load among the three schools as equitably as conditions permit; (2) using all available accommodation to the best advantage until such time as new buildings could be provided which the Board estimated could not be much before September, 1950.

The September term found an initial enrollment within the area of more than 750 and eventually these were allocated as follows:

Port Credit High School	575
Cooksville High School	100
Streetsville High School	75

Transportation being provided for those who were, of necessity, shifted from the school they would have normally attended to one of the others.

This has met the situation for 1948 and until June, 1949, and with the loyal co-operation of the teaching staff, all of whom at best are handicapped by large classes—some of which have 45 students—a sound academic education is being provided.

However, the need of new accommodation is pressing and urgent as can be seen from schedule of expected enrollment within the next 5 years that follows. (Calculations made from present attendance at public schools within the area furnished by Public School Inspector Underhill.)

Entrance	classes	1948	282
”	”	1949, est.	280
”	”	1950 ”	290
”	”	1951 ”	317
”	”	1952 ”	346
			1515

Adjusting these figures for probable increase from new families moving into the district and for the normal expectancy of failures and withdrawals before graduation, we believe that by 1952 the secondary school enrollment in the South Area will be between 1300 and 1400.

It becomes obvious, therefore, that a new building program is imperative on the basis of expected enrollment but there is the added factor of providing facilities for other than the academic and commercial classes. At present there is no provision for those many students whose abilities and desires are along trade or technical lines. It is from this segment of the secondary school enrollment that the greatest percentage of withdrawals before graduation takes place as they are just not fitted or interested in the purely academic courses available.

Such of these students who now desire technical education must seek enrollment at Weston or Toronto and facilities in these centres are becoming taxed with the result they can only accommodate a few from other places.

The ned for adequate elementary and secondary school education has never been greater than it is today to keep pace with the developments that have taken place in business and industry during the past 10 years. Training alone can cope with the competition for jobs that lies ahead, perhaps not next year or the year after, but it will certainly come in the not too distant future.

The Board feels obligated to provide technical courses with proper facilities for carpentering, shop work, household economics, etc., and agriculture and this is an important part of the building program now under consideration.

There has been criticism in some quarters of the lack of visible action but I can assure you that the matter is being proceeded with as speedily as good judgment and completion of all the many formalities to be complied with will permit.

At this time I am not in a position to discuss the building program in detail but can say that it includes a substantial addition to the Port Credit High School to take care of enrollment from the southern part of the area wherein resides about 70% of the total population and a new High School building on a suitable site in the Cooksville area, preferably in the village of Cooksville itself.

I believe this first year has proven the wisdom of creating area High School Boards in Peel County and know that most of the opposition to the plan, which was rather forcibly expressed last year, has abated. I further believe, in fact I know, that the South Peel High School Board has provided sound and efficient administration, and while there have been the inevitable minor dissatisfactions and irritations, elementary schools affairs in the South Peel area have been well deserved and will continue to be.

Yours truly,

(Signed) C. R. HAMILTON,
County of Peel Appointee and
Vice Chairman, The South Peel
High School Board.

ALLIED PRINTING TRADES COUNCIL

County of Peel Financial Report, 1948

Warden and Council, January 18, 1949.
County of Peel,
Brampton, Ontario.

Gentlemen:

We have audited the accounts of the Corporation of the County of Peel for the year ending December 31, 1948, and submit herewith with following report, together with Statements listed on the index.

Report

Capital and Loan Fund Section

Investment in Capital Assets, $202,597.88—The Investment in Capital Assets was adjusted due to the increase in the value of the County's interest of $1,416.59 in the Capital Assets of the Peel and Halton Home.

Revenue Fund Section

Cash in Bank, $49,466.62—The amounts of $8,175.72 in the General Account and $41,290.90 in the Road Account have been verified by direct communication with your bankers. All monies received are deposited in bank accounts in the name of the Municipality and all payments are made by cheque except certain small payments for postage and express. Money received from personal phone calls and stamps is used to pay for express, freight and postage. Summary of the transactions for the year are as follows:

Balance, December 31, 1947	$ 2.44
Receipts, 1948	19.51
	21.95
Disbursements, 1948	17.62
Balance, December 31, 1948	$ 4.33

This balance is not set up in the General County Books.

Accounts Receivable — Sundry, $1,171.82 — This represents charges for work done and for road material supplied to various people.

Due From Other Municipalities, $5,563.05—This represents charges against other Municipalities for work done on boundary roads totalling $3,521.90; and charges for a fifty per cent share of Indigent Hospital accounts totalling $2,041.15.

Due From Province of Ontario, $63,239.77—The estimated subsidy from the Province of Ontario on account of 1948 expenditures on the roads is $144,067.61 of which $82,652.82 was received in 1948, leaving a balance of $61,414.79 receivable as at December 31, 1948. In addition to the above road subsidy there is a refund due from the Province of Ontario for Administration of Justice in the amount of $1,824.98.

Equity in Current Assets of Peel and Halton Home—50% Interest, $6,027.36—This represents the County of Peel's interest in the Current Assets, less the Current Liabilities, of the Peel and Halton Home as at December 31, 1948.

Temporary Loan, $97,000.00—This Bank Loan of $97,000.00 has been confirmed by direct communication with your bankers. The loan has been arranged for the Good Roads System rather than for general County purposes.

Accounts Payable, $2,481.95—This represents December, 1948, Indigent Hospital Accounts of which 50% is recoverable from Other Municipalities.

Surplus, $19,916.83—Due to the fact that the forms now in use show Highway and Road Expenditures on the General Revenue and Expenditure Account rather than on a separate statement, we have consolidated the surpluses but we note below a detail of these items so that the portion of the account applicable to Roads may be seen separately from the balance of the General Accounts:

Surplus—General Account December 31, 1947	$14,490.26	
Deficit—Road Account December 31, 1947	6,457.66	
Net Surplus December 31, 1947		$8,032.60
Deduct:		
Surplus—General Account included in Current Budget	7,000.00	
Good Roads Subsidy for 1947 received less than estimated	270.43	
		7,270.43
		762.17
Add Surplus for 1948:		
General Account Surplus	1,065.41	
County Roads Surplus	18,089.25	
Total Surplus for 1948 (see Schedule C10)		19,154.66
Surplus as at December 31, 1948		$19,916.83

Taking into account the above items which affect General Account and those which affect Road Account for the above balance is made up as follows:

Surplus—General Account as at December 31, 1948	$ 8,555.67
Surplus—Road Account as at December 31, 1948	11,361.16
Surplus as above as at December 31, 1948	$19,916.83

Revenue and Expenditure—Statement of Revenue and Expenditure Account showing detail of the items entering into the calculation of the Surplus for the year of $19,154.66 is submitted herewith. Due to the forms now in use in which the Surplus or Deficit of the Good Roads System and the General Account are not separated we note below the breakdown of the Surplus for the year so as to show these two sections separately:

Surplus for 1948 — General Account	$ 1,065.41
Surplus for 1948—Good Roads System	18,089.25
Surplus for the year as above	$19,154.66

County Rates have been adjusted with the Township of Toronto Gore due to revenue received by the Township of Toronto Gore on account of services supplied on property exempt from assessment and taxes for the year 1947. The adjustment made is shown on the Statement of Revenue and Expenditure. No adjustment has been made between the Township of Toronto or the Township of Toronto Gore and the County due to any revenue for services which the Township may have received for 1948 on account of property exempt from assessment and taxes.

The General County Accounts are kept on a cash receipts and payments basis (except Hospital accounts see below) with the result that, to the extent that certain revenues of 1948 not received until 1949 and expenditures of 1948 not paid until 1949 are not included and similar items at December 31, 1947, were not included, the surplus for the year is incorrect. The assets and liabilities of the County are also understated by any amounts which were receivable or payable as at December 31, 1948. The effect of not including accruals in the year's operations will be small if the accruals at December 31, 1948, were approximately the same as at December 31, 1947. Hospital accounts outstanding as at December 31, 1948, have been included in the Revenue and Expenditure Account due to the fact that the accounts are substantial.

Health Unit—Capital and Revenue Fund Balance Sheets and Statement of Revenue and Expenditure Account of the Health Unit are included in this report.

Children's Aid Society—Statements of Receipts and Payments of the Children's Aid Society are included in this report.

Library Assosiation—Statement of Receipts and Payments of the Peel County Library Association is included in this report.

COUNTY OF PEEL

Expenditure on the County Road System During 1948

To the Warden and Members of the Council of the County of Peel.

Gentlemen:

I beg to submit herewith the detailed statement of money expended in accordance with the Regulations of the Department of Highways of Ontario on the Peel County Road System during the period January 1st, 1948, to December 31st, 1948.

The tabulated statements, declarations, etc., required by the Department of Highways in submitting the petition for the subsidy have also been prepared and submitted.

The mileage of county roads is 136 miles. The mill rate was 5 mills and the total expenditure including loans repaid of $203,000.00 was $466,090.03. The amount submitted for subsidy was $244,370.20.

The maintenance of the County Roads was exceptionally heavy. The spring break-up caused many roads in the Province to go to pieces and the Peel County roads were barely passable in many places for some time in the spring. Repairs and improvements were nearly $150,000.00.

Three bridges were built, at Bolton, Snelgrove, and Moore's near Malton. The abutments were built for the Credit River Bridge at Meadowvale and this bridge will be finished in 1949.

The weed spraying program was continued. Chicory and Wild Carrot appeared to be well under control and the harder to kill weeds were sprayed with Atlacide, but 2-4, D has proven satisfactory for the majority of the weeds found on the roadside. The widening and grading work done on the Sixth Line and Meadowvale Sideroad stood up well. These sections were primed, then surface treated with asphalt and chips. I suggest that the Council consider more of this type of work on roads that may be paved in the near future.

A detailed summary of the work done during the year follows.

All of which is respectfully submitted.

N. L. POWELL, B.A., Sc.,
Registered Professional Engineer,
County Engineer and Road Supt.

Job 1-47—Giles Bridge: Con. 1, East, Lots 15-16, Caledon.

This bridge was completed in 1947 but the old structure was not removed or grading done until 1948.

The road was widened and ditched in 1948 and a good foundation of pit run gravel placed on the new grade. The cost of this work is shown under Job 15-47.

Job 3-47—Bolton Bridge: Over the Humber River, King St. E., in the Village of Bolton.

The contract for this bridge was let to P. M. Finnegan, of Weston, in 1947 but work was deferred until 1948 as materials were not available early and the contractor was busy up to Nov. 1.

The steel railing will be placed in 1949, the old structure removed, and the grading of approaches finished.

This is a 50 ft. span rigid frame reinforced concrete bridge.

1947 expenditure was $1,275.14.

Job 2-47—Fieldhouses Bridge: Lots 5-6, Con. 10, Toronto Gore.

This bridge was built in 1947 but the approaches were not graded. Only enough was done to get traffic over it for the winter. Before the work could be started the Department of Highways wanted a place to dump the old pavement and soft fill taken from frost boils in No. Seven Highway. Approximately 1,000 cu. yds. of this fill was dumped in the hollow east of the bridge. This was all on the shoulders, the centre twenty feet being kept clear for earth fill that could be consolidated.

The remainder of the grading was done by H. Beer of Alton at a rate of 45 cents per cu. yard, plus 10 cents for overhaul on half of the work—a total of 1,703 cu. yds. divided as follows:

H. Beer: Bridge approaches within 100 ft., 293 cu. yds. @ 45c		$ 131.85

Job 14-47—Moore's Bridge: Lots 10-11, Con. 5, East, Township of Toronto.

This bridge was called Cowtan's in the 1947 report, from the name of a nearby owner but the farm on the south side had been in the Moore family for many years until it was purchased by the Toronto Harbour Commission as part of Malton Airport. In 1947 the old bridge was demolished by a tractor and trailer owned by the King Paving Co.

Expenditures in 1947 for a detour, etc., were $1,083.52 less $700.00 received from the King Paving Co. in settlement of the County claim against them. Tenders were called in 1948 and the following is a summary:

	(Cement Supplied by County)	(Ready Mix Concrete)

The Contract was awarded to the lowest bidder, A. H. MacLellan of Mount Forest for Ready Mix. The cost of cement which is included in the Ready Mix price would have been and would have to be added to the other price, is $1,800.00 approx.

Job 15-47—Grading: Con. 1, East, Lots 15-16, Township of Caledon.

A new bridge named Giles Bridge was built in 1947 but the grading was not done until 1948. This road was low and subject to flooding every year so it was widened to 100 feet, ditched and the road raised for a distance of 1400 feet westerly from the First Line. The grading was done by Hamilton Bros. of Streetsville on an hourly basis and the pit run gravel for a base course was loaded by the Bolton Const. Company.

Job 1-48—Meadowvale Bridge: Credit River, Lots 10-11, Con. 3, West, Township of Toronto.

The old high truss steel bridge with a span of 112 ft. built in 1896 was too light and the west abutment had slid forward towards the river until the south west corner of the bridge was only supported on the clay, back of the abutment. It was decided to replace this bridge. There has been a long history of ice jams filling the channel of the river up to the bottom of the steel truss and also annual flooding of the Village of Meadowvale. The road east of the bridge for one quarter mile and west for half a mile is only 4 ft. to 6 ft. above low water mark in the river.

A centre pier was not practical owing to the annual ice jams. It was decided to lengthen the bridge 20 ft. to 132 ft. span without a centre pier and raise the floor 1½ feet above the level of the old bridge deck.

An all concrete bridge would not give the clear waterway deemed necessary so tenders were called for concrete abutments and a low steel truss, 24 ft. roadway and one sidewalk. The County was spending $220,000.00 on the County road system not including this bridge but including new bridges at Malton, Snelgrove, and Bolton, so the Engineer recommended, after consulting the Dept. of Highways, that a Consulting Engineer be retained to prepare the detailed plans, specifications and tender forms, for this bridge.

The County Engineer to do all supervision after the Contract was let. The County Council approved of this. The Consulting Engineer was C. C. Parker of Hamilton at a fee of $2,000.00. The standard fee for complete supervision would have been at least $2000.00 more, perhaps $3000.00.

When the tenders were opened they were much higher than the estimated $50,000.00 and the Consulting Engineer was given $200.00 more for further study of an alternate design. However it was found that the design on which tenders were called was the most satisfactory and the Contract was let to the lowest bidders, John Patterson Const. Co. and Hamilton Bridge Co.

	TOTAL	$41,690.00

The foundations had been tested before tenders were called. The machine was a core drill loaned by the Department of Highways. The report was that below normal water level there was three to six feet of sand and gravel on top of soft blue clay 13 to

17 ft. deep and then gravel and hard gravel. The deepest hole in the river bed was eleven feet at the west abutment.

The plan called for the abutments to be twelve feet below normal water level on top of 25 ft. wood piling. However the piles drove to refusal at ten and eleven feet and could not be driven farther down.

The tender of the Hamilton Bridge Co. was for erection in January, 1949, if they could secure the steel. Steel delivery has been slow and it is not expected that the steel will be erected until April or May. Then the deck has to be placed. The bridge will not be open until July, 1949.

Expenditure in 1948 to bring abutments to the top of bridge seat:

Job 2-48 B.—Snelgrove Bridge, Etobicoke Creek—Lots 17-18, Con. 1, East, Chinguacousy.

The west abutment of this bridge was washed out in 1928 and a temporary wooden crib installed then, and the concrete floor removed to lighten the load. This bridge was at the foot of a steep hill, narrow and too light, it was long overdue for replacement. Tenders were called for a 50 ft. span reinforced concrete rigid frame bridge with a 24 ft. roadway, to be placed 200 feet east of the old bridge and on a line to straighten the job in the middle of the concession.

The following tenders were received:

Richardson Construction Co., Toronto	$ 8,589.00
Kamlee Construction Co., Toronto	8,455.00
Dover Construction Co., Brampton	11,316.00

On the recommendation of the Engineer and approved by the Dept. of Highways the contract was awarded to the Richardson Const. Co. of Toronto at their tender price. The Kamlee Const. Co. (K. A. Morrison) had built two bridges in the County in 1947 and the work was not as good as it should have been.

Job 2-48—G. Grading Approaches to Snelgrove Bridge.

Tenders were called for grading the approaches to the new bridge at Snelgrove as soon as the bridge was ready. Estimated number of cu. yds., 13,070, plus compaction and some clearing and grubbing. Tenders closed for the August meeting.

Hi-Way Const. Co., Simcoe, 27c cu. yd.	$3,733.90

F. Poce Const. Co., Toronto, 47c cu. yd.	6,992.90
Greenwood Const. Co., Grand Valley, 68c cu. yd.	9,297.60

The old bridge was at the west bank of the Etobicoke Valley. The new bridge was moved 200 ft. east to get away from this bank.

When tenders were called for grading, the quantity of fill, 13,070 cu. yds., was based on half of the fill being taken from the west bank on a 5% grade. This meant a cut up to 7 ft. in depth and three entrances leading to the road being cut back involving land damages as well as a dangerous approach in each case.

The grade was increased to 6% and the only fill taken from the west side was sufficient to make a ditch on the north side. The old road surface was not disturbed. The cut on the west bank would also have been down into a seam of water bearing sand.

This increased the yardage by about 2,000 cu. yds. It was hoped that the 4,500 cu. yds. of excavation from the new channel could be used for fill, but it was not suitable. The contractor had to bring in a dragline to excavate the new channel and had difficulty in spreading it evenly. The original quantities of fill were based on the water level in the creek, but there was a large hole under the old bridge and extending 100 ft. south that it was necessary to fill as well as other holes in the old creek bed, so that the quantities of fill were increased as follows:

Change in grade	2,000 cu. yds.
Diversion channel fill not fit to use	4,500 cu. yds.
To fill holes in old channel and in creek (bed)	3,000 cu. yds.
	9,500 cu. yds.
Total quantity	22,930 cu. yds.
Tender amount	13,070 cu. yds.
Increased yardage	9,860 cu. yds.

The work is nearly complete but wet weather prevented trimming up and ditching. The work in 1949 will be trimming, payment for land for diversion of stream and the borrowed pit. Expenditure in 1948 was:

REPORT ON CHEVROLET CAR USED BY COUNTY ENGINEER

Until the end of 1946 the County supplied a car for the use of the Engineer and allowed $50.00 per month or $600.00 per year for car and travelling expenses within the County. On the occasional trip with members of County Council to other parts of the province, usually Reforestation meetings, expenses were paid the same as to members of Council. No objection was made to this by Council, but the Highway Department decided that the "lump sum for expenses" method was unsatisfactory as a general practice and requested that all Counties use one of two methods:

1. County to own car and pay expenses.
2. Engineer to own car and be paid mileage.

The 1947 Council decided to use Method No. 1. The County to own the car and pay expenses. The Engineer was to have the privilege of using the car for personal driving but to buy the gas for personal trips out of town. The car was purchased in July 1946 and no change made in 1947. The cost of this method as shown by the Annual Report for 1947 is as follows:

510.2 gals. gas	$ 178.87
18 qts. oil	6.95
Repairs	90.91
Greasing and washing	8.55
4 tires	86.20
Insurance	51.07
	$422.55

During the same period the Engineer purchased gas as follows:

261 gallons	$ 97.89
9 qts. oil	3.60
	$ 101.49

Mileage for year	17,604 miles
For County	11,647 miles

4. The Deputy Minister told the delegation that the sum of $48,000.00 had been set aside for Port Credit Harbour this year. As this money was to be spent in dredging the Committee pointed out that for very little extra money a pier could be built, which would be included in the permanent Harbour, and that this pier would protect the dredging that they intended dong. The Deputy Minister assured the dele-

gation that he would recommend to the Minister that this be done.

5. The delegation interviewed the Minister of Public Works, and pointe dout that if a pier was built, and some dredging done, that this would give some relief at the present time and then if shipping warranted it this pier could be included in a permanent harbour at some future date. Although not committing himself the Minister assured the delegation that he would consider the project.

ANNUAL REPORT OF THE PEEL COUNTY WEED INSPECTOR

Reviewing the survey of the County of Peel of weed inspecting I beg leave to report that I have spent over 45 days and drove over 2500 miles, found the weed situation very much improved over the County from past years but believe it is only on account of the exceptionally dry spring and summer that made it appear so, because after we had one or two good rains at the latter part of the summer the weeds on the roadside as well as on the farms and house lots, seemed to be as bad or a little worse than in past years except, where they had been sprayed the previous year or years.

In viewing the roads that have been sprayed apart from the roads that have not been sprayed, I would like to say that there is a great difference and I consider money spent in spraying is money well spent, and would like to see more spraying done. There are two municipalities that did not do any spraying this year, the Townships of Caledon and Albion, and I would strongly advise the members of those townships who are here today and are members of next year's municipal council to have a sum of money set aside early in the year for spraying purposes on municipal roads, also would like to see all municipal and county roads sprayed in 1950 if possible, especially those that have not been sprayed in summers of 1948 and 1949.

The District Weed Inspector, Mr. Stanley Young, of the Parliament Buildings, made several visits to the county this summer and we put on several weed spraying demonstrations. First one, a mustard demonstration on the farm of Mr. Harold McFarlane at Woodhill about the first week of June. Second demonstration was put on by Mr. Young and myself on wild carrot on number 7 highway on the south side from my own gateway west to the guardrail. Third demonstration was on ragweed on the farm of Mr. Harry Cunnington, on the third line west. Fourth demonstration was on brush on 32 sideroad on the north side from the 2nd line east about one hundred yards west from the corner. Fifth demonstration was on ordinary roadside weeds in Albion Township, one on the roadside in front of Mr. Howard McCort's farm from his driveway south to almost the end of the lot, another test was sprayed on the fourth line of Albion about a lot below Mr. J. H. Rutherford's farm on the west side.

I received numerous letters of complaints from various localities and made personal contact to about all once and some the second time, except one who wrote several letters this summer. He lives on the Erindale Station road, which had been sprayed twice, and still kept writing asking me to call as he had some important private matters to discuss, I didn't go.

I got a small spraying machine on the job of some poison ivy in Lorne Park in Toronto Township, but I received a complaint about from the Department, and had it sprayed three times, twice by the private machine and once by the Department demonstration. I had been in contact with the Principal of Lorne Park Public School and in one room alone about 23 pupils had had poison ivy infection this season as well as some older people whom I was talking to.

I visited all Township Councils but one (Albion) at the first part of the season asking them to set aside a sum of money for weed spraying purposes and received a good reception at all meetings and found them very cooperative and as I have already stated would like to see every Township set aside a fair amount of money for municipal property and weed spraying in 1950.

All of which is respectfully submitted.

M. H. McKENNA,
Peel County Weed Inspector.

To the Warden and Council of the County of Peel.

1. We have a letter from the Office of the Minister of Highways acknowledging receipt of the resolution passed in the November Session, re: Kings Highways.

We recommend that this letter be filed.

2. We have a notice of an application to the Ontario Municipal Board by the Township of Toronto for building and use of land restrictions on lands abutting on County Roads Nos. 1 and 2. This hearing was on November 22nd.

We recommend that this be filed.

3. We have a notice from the Department of Highways, re the reversion of certain roads in the Township of Albion to the municipality previously liable, this being the County of Peel, and refers to the road allowance at Cedar Mills Subway and north of Palgrave.

We recommend that this be referred to the County Solicitor for a report at the next session of Council.

4. We have a letter from the County Council of the County of Perth enclosing a copy of a resolution passed by their Council. This resolution asks the Department of Highways to have legislation passed making the throwing of bottles on the highway a serious offence.

We recommend that this Council approve and endorse the above resolution and that the clerk write to the Minister of Highways, Hon. T. L. Kennedy, and the clerk of Perth County, advising them of the above recommendation.

Adopted December 8th, 1949.

DECEMBER REPORT OF THE LIBRARY COMMITTEE

To the Warden and Council of the County of Peel.

Your Committee on Library beg to report as follows:

1. The annual meeting of the Peel County Library Cooperative was held in the Brampton Public Library on November

17th, 1949. Representatives were present from the following libraries: Lorne Park, Streetsville, Port Credit, Clarkson, Alton, Malton, Cooksville, Claude and Brampton. Mrs. Eckmier, Huron County Librarian, was present and addressed the meeting re the program in Huron County. (Huron County spend approximately $14,000.00 for library work.)

Peel County librarians' reports showed that $1,508.59 has been spent on books in 1949, and that the library has a balance of $552.98 to carry on in 1950 until the grants are received.

2. As the County Librarian tendered her resignation in September to take effect the end of the year, the position was advertised and a special meeting was called for November 29th, to consider applications.

3. Miss Madelaine Stubbs, Alton, was engaged as County Librarian. She will be paid $50.00 a month and $100.00 a year travelling expenses on voucher.

4. The County Library is showing good progress and the Board have received favourable comment from all over the County. We would like to recommend to next year's Council that they consider a larger grant for this work so that the services might be extended and a qualified librarian engaged.

5. We recommend payment of the following committee fees for three meetings:

I. W. Kellam	$18.00
R. J. Wilson	23.40
J. A. McLaughlin	18.00

FIRST REPORT OF THE TREE CONSERVATION COMMISSION

To the Warden and Council of the County of Peel.

Your Committee on Tree Conservation beg to report as follows:

We have found the people very co-operative in their attitude to the object of the Commission in all places visited.

Our work has largely been an inspection of the Townships of Caledon and Albion, and up to the present time there has been no activity in the bushes in those townships.

In Albion Township one man sold a portion of a bush on the banks of the Humber River one year ago and received cash before cutting was begun and your Commission after consultation with Mr. Gage, Provincial Forester decided no action could be taken.

In Toronto Gore Township one farmer asked permission to cut down about ten acres of bush, as it was situated on good, level land and after your Chairman with Mr. Gage had inspected the bush, permission was granted for him to cut the bush on condition that he reforest a like acreage during the next five years on other parts of the farm which was not very suitable for cultivation.

Two members of your Commission attended a tree planting demonstration in Albion on the afternoon of November 4th. The Department of Lands and Forests were demonstrating one of the newest plows for planting trees and your Commission were quite favourably impressed with the work of the machine and would like strongly to recommend the purchase of one of these machines by the County for use of the County and for rent to residents for tree planting.

In accordance with the By-law the following indemnity is recommended:

John Graham	$15.70
John Anderson	29.08

Adopted ??

JOHN ANDERSON,
Chairman.

AUDITOR'S COMMENTS

January 21, 1950.

Warden and Council,
County of Peel,
Brampton, Ontario.

Gentlemen:

We have audited the accounts of the Corporation of the County of Peel for the year ending December 31, 1949, and submit herewith the following report, together with Statements listed on the index.

Report

Capital and Loan Fund Section

Investment in Capital Assets, $202,875.69—The Investments in Capital Assets were adjusted due to the increase in the value of the County's interest of $277.81 in the Capital Assets of the Peel and Halton Home.

Revenue Fund Section

Cash in Bank, $14,470.22—The amounts of $1,784.39 in the General Account and $12,685.83 in the Road Account have been varified by direct communication with your bankers. All monies received are deposited in bank accounts in the name of the Municipality and all payments are made by cheque except certain small payments for postage and express. Money received for personal phone calls and stamps is used to pay for express, freight and postage. Summary of the transactions for the year are as follows:

Balance December 31, 1948	$ 4.33
Receipts, 1949	15.30
	$19.63
Payments, 1949	16.15
Balance December 31, 1949	$ 3.48

This balance is not set up in the General County Books.

Accounts Receivable — Sundry, $238.78—This represents charges for work done and for road material supplied to various people.

Due from Other Municipalities — $8,121.54—This represents charges against other municipalities for work done on boundary roads totalling $2,980.22 and sundry charges to other municipalities re Indigent Hospital Accounts and Children's Aid Societies totalling $5,141.32.

Due from Province of Ontario, $52,606.52—The estimated subsidy from the Province of Ontario on account of 1949 expenditures on the roads is $159,016.00 of which $106,409.48 was received in 1949 leaving a balance of $52,606.52 receivable as at December 31, 1949.

Equity in Current Assets of Peel and Halton Home — 50% Interest, $9,808.21—This represents the County of Peel's interest in the Current Assets, less the Current Liabilities, of the Peel and Halton Home as at December 31, 1949.

Temporary Loan, $61,000.00—This Bank Loan of $61,000.00 has been confirmed by direct communication with your bankers. The loan has been arranged for the Good Roads System rather than for General County Purposes.

Accounts Payable, $16,001.95—This represents 1949 accounts which were outstanding as at December 31, 1949, and not paid until 1950 (See last paragraph under Revenue and Expenditures below).

Due to Other Municipalities, $1,506.43—This represents the portion of collections received from Indigent Hospital Patients, due to the responsible municipalities.

Deficit, $3,071.32—Due to the fact that the forms now in use show Highway and Road Expenditures on the General Revenue and Expenditure Account rather than on a separate statement, we have consolidated the surpluses but we note below a detail of these items so that the portion of the account applicable to Roads may be seen separately from the balance of the General County Accounts:

Surplus—General Account as at Dec. 31, 1948	$ 8,555.67	
Surplus—Road Account as at Dec. 31, 1948	11,361.16	
Net Surplus Dec. 31, 1948		$19,916.83
Add Cheques prior years not cashed—cancelled		118.58
		$20,035.41
Deduct Good Roads Subsidy for 1948 received less than estimated		418.17
		$19,617.24

Deduct Deficit for 1949:

General Account Deficit	14,176.95	
County Roads Deficit	8,511.61	
		$22.688.56
Deficit as at Dec. 31, 1949		$3,071.32

Taking into account the above items which affect General Account and those which affect Road Account for the above balance is made up as follows:

Surplus—Road Account as at Dec. 31, 1949	$2,431.38
Deficit—General Account as at Dec. 31, 1949	5,502.70
Defecit as above as at Dec. 31, 1949	$3,071.32

Revenue and Expenditure—Statement of Revenue and Expenditure Account showing detail of the items entering into the calculation of the Deficit for the year of $22,688.56 is submitted herewith. Due to the forms now in use in which the Surplus or Deficit of the Good Roads System and the General Account are not separated we note below the breakdown of the Deficit for the year so as to show these two sections separately:

Deficit for 1949—General Account	$14,176.95
Deficit for 1949—Good Roads System	8,511.61
Deficit for the year as above	$22,688.56

County Rates have been adjusted with the Township of Toronto Gore due to revenue received by the Township of Toronto Gore on account of services supplied on property exempt from assessment and taxes for the year 1948. The adjustment made is shown on the Statement of Revenue and Expenditure. No adjustment has bee nmade between the Township of Toronto Gore and the County due to any revenue for services which the Township may have received for 1949 on account of services supplied on property exempt from assessment and taxes. It is noted the last payment received from the Township of Toronto on account of revenue for services supplied on property exempt from assessment and taxes was in 1947, and was on account of 1947 revenue. It is also noted that no payments have been received from other municipalities within the County on account of revenue received for services supplied on property exempt from assessment and taxes.

In prior years accounts had been kept on a cash receipts and payments basis with the result that to the extent that certain revenues of the current year were not received until the succeeding year and similar items at the end of the prior year were not included, the surplus or deficit for the year was incorrect. In 1949 accounts payable outstanding as at December 31, 1949, were set up for a total amount of $16,001.95. This change has been made in order that future years' accounts can be kept on an accrual basis rather than on a receipts and payments basis as in prior years. Including in the Revenue and Expenditure Account 1949 items which, under the old receipts and payments basis, would not have been shown until 1950 has resulted in the deficit for the year being increased to a considerable extent. This change, however, will result in 1950 and succeeding years showing an exact year's operations and will have your accounts on the basis as preferred by the Department of Municipal Affairs.

Health Unit—Capital and Revenue Fund Balance Sheets and Statement of Revenue and Expenditure Account of the Health Unit are included in this Report.

Children's Aid Society—Statements of Receipts and Payments of the Children's Aid Society are included in this Report.

Library Co-Operative—Statement of Receipts and Payments of the Peel County Library Co-Operative is included in this Report.

AUDITOR'S COMMENTS

January 21, 1950.

Board of Management,
Peel & Halton Home,
Brampton, Ontario.

Report

Current Assets and Liabilities

Cash on Deposit, $9,672.97—All monies received are deposited in the bank account in the name of the Peel & Halton Home. We have verified the amount on deposit by direct communication with your bankers. All payments are made by cheque except petty disbursements made by the Superintendent from an Imprest Cash Fund of $25.00 charged to expense. No adjustment has been made in the statements for the amount in the Imprest Cash Fund unexpended at December 31, 1949.

Inventory, $11,893.55—Your Superintendent has supplied us with inventory values of the Clothing, Food, Livestock, etc. on hand as at December 31, 1949.

Maintenance Prepaid, $1,950.09—This represents prepayments of maintenance of various paying residents.

Current Surplus, $19,616.43—The Current Surplus as at December 31, 1948, was $12,054.73. To this Surplus as at December 31, 1948, has been added the Surplus for the year 1949 amounting to $7,561.70 which gives a Current Surplus as at December 31, 1949, of $19,616.43.

Capital Assets and Liabilities

Land and Buildings, $85,670.00—Land and Buildings have been placed at the same value as at December 31, 1948. The capital improvements and major repairs made during 1949 have not been capitalized as these expenditures, no doubt, only maintain the value of the buildings.

Furniture and Fixtures, $11,269.48—Furniture and Fixtures are valued at $11,269.48, a valuation as supplied by the Superintendent. This is an increase during 1949 of $555.63.

Farm Implements, $5,861.75—Farm Implements are valued at the amount $5,861.75, a valuation as supplied by the Superintendent.

General—Under various court orders, real and personal property of certain inmates has been vested in the municipal corporation of the Counties of Peel and Halton, and subsequently the Counties of Peel and Halton have transferred their interest to the Board of Management of Peel & Halton Home. The Board of Management has, in some cases, realized on the assets and applied them in payment of maintenance of the inmates, and in other cases, they are receiving the income from the assets which they have been applying to the maintenance of the inmates, or which has been deposited in Special Trust Accounts for the inmates. A supplementary report is being submitted showing the detail of the assets held for individual estates.

Expenditure on the County Road System during 1949.

To the Warden and Members of the Council of the County of Peel.
Gentlemen:

I beg to submit herewith the detailed statement of money expended in accordance with the Regulations of the Department of Highways of Ontario on the Peel County Road System during the period January 1st, 1949, to December 31st, 1949.

The tabulated statements, declarations, etc., required by the Department of Highways in submitting the petition for the subsidy have also been prepared and submitted.

The mileage of county roads is 136 miles. The mill rate was 4½ mills and the total expenditure including loans repaid of $297,000.00 was $591,566.11. The amount submitted for subsidy was $274,639.85.

Again Maintenance was costly and will continue to be expensive. The long dry period from early in March until June kept the gravel roads from becoming consolidated. Dust laying was late and not very effective, the materials going too far down in the road surface.

Those who travel by motor car and truck and this includes nearly everyone, expect all road, both pavement and gravel, to be maintained so that they can travel at the maximum speed limit at all seasons of the year.

In construction work, Meadowvale bridge was completed. The grading on the Sixth Line East was finished up to Woodhill on No. 7 Highway. a distance of 1⅛ miles. This will be primed and surface treated as soon as possible in 1950. The surface treatment on the road graded in previous years was repeated and stood up reasonably well.

A detailed summary of the work done during the year follows. All of which is respectfully submitted.

N. L. POWELL, B.A., Sc.,
Registered Professional Engineer.
County Engineer & Road Superintendent.

CREDIT RIVER DIVERSION AT ELDORADO

On the inspection trip of the Boundary Bridge Committee it was found that there was an immediate possibility of the Credit River changing its course about 200 yards above the Eldorado Bridge. More than 50% of the normal flow was going through a small channel to the west of the valley and it was decided to remove a large gravel bar and partially straighten the course of the Credit. Chinguacousy Township Council agreed to pay one-third of the cost.
